

Ghana

Summary of country engagement at SWA

Priority country : Political prioritization

Ghana joined SWA in 2010. The National vision for water and sanitation sector is “sustainable basic water and sanitation service for all by 2025” which is elaborated in the Water Sector Strategic Development Plans as “all people living in Ghana have access to adequate, safe, affordable and reliable basic water service, practise safe sanitation and hygiene and that water resources are sustainably managed”. This Plan (WSSDP) guides the sector as a whole (both state and non-state actors) in the planning, development and management of the nation’s water resources and in the delivery of sustainable water and water-related sanitation services.

Commitments by the government

Commitment	Body / Organizations	Target Year	Progress Description	Constituency	Progress
The Ministry of Sanitation and Water Resources will reactivate the sector working group, ensuring that the private sector, development partners, NGOs, academia with financial and technical resources sit together.	Ministry of Sanitation and Water Resources	2030		Government	Reviewing prog

Commitment	Body / Organizations	Target Year	Progress Description	Constituency	Progress
We will increase public financing for improved access to safe and reliable water supply, eliminate open defecation, develop solid and liquid waste infrastructure, and increase access to household toilets (including enforcement of sanitation bye-laws).	Ministry of Sanitation and Water Resources	2030		Government	Reviewing prog

Commitment	Body / Organizations	Target Year	Progress Description	Constituency	Progress
We will promote sustainable water resources development and management by 2030. By this, both policy and programmatic actions will be implemented by the Ministry of Sanitation and Water Resources and its agencies in collaboration with allied ministries and agencies to enforce existing laws that protect fresh water bodies and ensure water safety planning and plans are integral to all aspects of safe water provision to citizens.	Ministry of Sanitation and Water Resources	2030		Government	Reviewing prog
