

Mozambique

Summary of country engagement at SWA

Mozambique joined the SWA partnership in 2011. Through multi-stakeholder and government led processes, government of Mozambique developed a Water Supply and Sanitation Sector Implementation plan for sustainable Development Goals. The priority on this roadmap is the eradication of open defecation by 2025, as well universal access to safe sanitation by 2030. In addition to the plan, Mozambique further developed the Rural Sanitation Strategy so that through decentralized actions and local leadership, sanitation coverage acceleration is implemented. On sector financing, Mozambique is currently developing a mechanism for innovative financing.

Commitments by the government

Commitment	Body / Organizations	Target Year	Progress Description	Constituency	Progress
Ensure that the national water and sanitation sector information system (SINAS) is adequately resourced and staffed and fully operational in 10 provinces and all 154 districts by 2019.	Ministry of Public Works, Housing and Water Resources	2019		Government	Reviewing progress

Commitment	Body / Organizations	Target Year	Progress Description	Constituency	Progress
Eradicate open defecation by 2025 and guarantee universal access to safe sanitation by 2030.	Ministry of Public Works, Housing and Water Resources	2025		Government	Reviewing progress
