

Uganda

Summary of country engagement at SWA

Priority country : Political prioritization

Uganda joined the SWA partnership in 2010. The WASH sector in Uganda has greatly improved on the planning, monitoring and review building block. A National Development Plan was developed and aligned with the SDGs. There are some gaps which need to be addressed in sector financing and capacity development. All sector processes (planning, budgeting, monitoring and evaluation) are government - led supported by all partners.

Commitments by the government

Commitment	Body / Organizations	Target Year	Progress Description	Constituency	Progress
Develop a country roadmap to eliminate Open Defecation from 7% to 0% of the population by 2030.	Ministry of Health and UNICEF	2022		Government	100%
