## Summary of country engagement at SWA

### Priority country : Climate Action

Cabo Verde joined SWA in 2020. The national vision for the sector is to promote water supply and sanitation systems that are capable of responding to the demands of the population and improve the living conditions of Cape Verdean. Through this, the government aims to generate a healthy environment through balanced universal access to sanitation and water for all, exceeding all goals of the Sustainable Development goals. Cabo Verde's priorities within the partnership lie in improving financing for the sector whilst finding cost effective ways of delivering water, sanitation and hygiene services, as well as in addressing paramount issues related to climate change.
